### MAIN SAFARI ROUTE

There are two routes from which to choose. The '**Main Safari Route**' is designed to be ridden by all sizes of machines and will suit riders who are new to adventure riding. This route will be back-country gravel roads, hard based 4WD roads, easy farm and forest tracks and will use minimal sealed roads. Suitable for all dual-purpose bikes, large and small, from 200 to 1200 cc. The Main Safari route will be totally rideable for those new to adventure riding, providing you have basic off-road riding experience and suitable tyres fitted to your machine.

### ADVENTURE TRAIL OPTIONS

This is basically the same route as the '**Main Safari Route**' plus some additional trail, and bush track sections. The Adventure Trail Route is for the trail rider or experienced off-road riders who prefer a slightly more trail focussed adventure ride. These optional routes can be challenging at times, but are easily achievable by any rider with moderate trail skills and the right tyres. Not recommended for those with pillion riders.

### NAVIGATION

Self navigated with "route sheets" inside a "route sheet holder\*" see us for instructions to make your own. The non-competitive nature of this adventure ride means there's plenty scope for riders to set their own pace, enjoy the scenery, take photos and meet new riding pals.
